No.1763-B/37-15 dated 5th March 1938.

Reference your telephone message of the 5th instant. The work at Coondapur relates to the construction of a building for the office of the Deputy Inspector of Schools, Coondapur Range, South Canara District, the proposal to execute which in the current year has been approved in G.O. R.1180-Public Works dated 22nd December 1937. The Executive Engineer has been asked by wire to hold up the work. No expenditure on the work has been incurred to end of January 1938. The Executive Engineer has stated in the progress report that Rs.300/- is expected to be spent on the work in February and March 1938.

This The

In the direct frontage of the Court-House
- wherein the office of the District Munsif of
Kundapur are located a new building
is evidently undertaken to be constructed for
the office of the Sub Inspector of Schools. May
I suggest that the matter may be reconsidered
in view of the following facts, and the digging
of trenches for the foundation be stopped
forthwith until final conclusion is reached on
this representation.--?

Chief Secty
Home
13 Mch/38

(1) The few cents of land over which the present construction is to be laid are so much in the direct frontage of the portico of the Court House that the whole view of the imposing big structure will be obstructed - apart from interference with breeze etc.-- A similar attempt to put up a building there was given up in 1898 on the representation or protest by the late Devan Bahadur M. Subbaya Bangera who was then residing opposite of the Court and the then proposed (middle) for the erection of the Taluk Office, Magistrate was constructed at the other end of the town ½ mile south.

(2) Rented buildings are in these days much cheaper; for small buildings such as are required for Sub Courts or Health Inspector are available in all towns in the town, at convenient places. The rent too will be much less than what the interest will be on the investment in new structures.

(3) Lastly investment on public (grant) of the + buildings has to be considered only in view

it is inevitable. The Magistrate's Court building is a huge one; there is hardly any congestion of work - not much staff (only 2 clerks) One of the rooms can be allotted to the Dy Inspector of Schools - and the rent too can be saved.

It is therefore submitted that the above facts may be used to be investigated in the interests of national economy and final orders passed at an early date necessity of shifting or otherwise of a separate building: and that too, whether the present premises is suitable for it - the Bar association & the Municipality may be also, its views submitted consulted.

Yours obediently,

K. R. Nambiar

Post Box No. 410 *Telegraphic Address* Cuyadamica

Name H.R. Dogra Esq., B.Sc.

No. 489-B / 38-1., *dated* 23rd March 1938 193

ASST. SECRETARY TO GOVT. PUBLIC WORKS DEPT. 24 MAR 1938 1383

Short title

READ—the following :—

Letter No. 326-W dated 18th March 1938 from the Superintending Engineer, Coimbatore Circle, to the Chief Engineer, P.W.D., (General, Buildings and Roads).

Reference:- Your Endt. No.1763-B/37-14 dated 5th March 1938.

Subject:- Construction of a building for the Office of the Deputy Inspector of Schools, Coondapu Range.

The Executive Engineer, West Coast Division reports that your wire directing to hold up the above work pending further orders, was communicated to the Sub Divisional Office and the Section Officer immediately on receipt and a notice to the effect was also served on the contractor.

It is reported that prior to the receipt of the orders to hold up the work concrete has been laid and that two courses of masonry have also been built in the foundation and that the cost of work so far done is about Rs.300/-, besides some materials collected by the contractor and yet to be used on the work. Further report regarding the value of the materials is awaited from the Executive Engineer and will be submitted immediately on receipt.

In view of the fact that the work has already been commenced and commitments made I request that very early orde to proceed with the work may kindly be issued.

Submitted to Government in continuation of thi office No.1763-B/37-15 dated 5th March 1938.

23/3 for Chief Engineer, P.W.D.

*No.*489B/38-3, *dated* 26th April 1938.

Sir,

Construction of a building for the Office of the Deputy Inspector of Schools, ~~Cuddapah~~ Coondapoor Range.

Ref:- Government Memorandum No.1024C/38-1 dated 26th March 1938.

ENCLOSURES_____

SPARE COPIES_____

I forward herewith copies of letters from the Executive Engineer, West Coast Division offering his remarks on the points raised in Mr. Bhandari's letter. A lay-out plan of the locality furnished by the Executive Engineer and a copy of the letter of the District Judge to the Executive Engineer No.1490 dated 11th March 1938 are also enclosed.

2. An estimate for Rs.10,080/- was sanctioned in G.O.No.1848-W dated 20th June 1896 for the construction of a Stationery Sub-Magistrate's office at Coondapoor on the site in question and the funds required were also allotted for the execution of the work in 1896-97. But the entire provision was resumed in G.Os. Nos. 102-W dated 11th January 1897 and 271-W dated 27th January 1897 on the ground that the District Judge objected to the use of the site for the purpose. The grounds on which the then District Judge based his objection are not traceable; but they must obviously be the same as those now advanced by Mr.Bhandari in his letter to Government. As the new

building

building will be 100 feet away from the District Munsiff's Court, with a road running in between, I consider that the strong objection raised by Mr.Bhandari and the District Judge lacks reasonable support.

3. The Executive Engineer states that he is awaiting the opinion of the Collector on certain proposals made by the Sub-Collector as a compromise. He is being asked to obtain and forward the Collector's opinion as early as possible. On its receipt I shall submit a further report on the matter.

for Chief Engineer, P.W.D.

2/4

xecutive Engineer's
939-M dated 5/4/38,
6/4/38 and 1067-M
dated 23/4/38.
2. Lay-out plan.
3. Copy of letter from the District
Judge.

Copy of letter No.939-M dated 5th April 1938
from the Executive Engineer, West Coast Division, Calicut
to the Chief Engineer, General, Buildings and Roads, Madras.

Sub:- Construction of an office for the Deputy Inspector of Schools at Coondapur.

Ref:- Your letter No.489B/38-2 dated 30th March 193

I submit herewith a site survey showing all the buildings in the locality with reference to the Deputy Inspector's Office under construction.

From the site survey plan it will be seen that the building is reasonably far away from all the buildings in the vicinity and will not materially obstruct the breeze to the District Munsiff's Court. as the building is proposed to be located 100 feet away from the court building and 70 feet from the compound. Further it is reported that the prevailing breeze is from the west or even north west and not from this direction i.e. due North.

As for para 2 of the Government's Memo No. 1024 E/38-1 dated 28th March 1938 a further report has been called for from the Sub-Divisional Officer and the same will be submitted immediately on receipt from him. He has been reminded to-day also to expedite his report.

I enclose a copy of a letter received by me from the District Judge, South Kanara in this connection.

Copy of letter No.950-M dated 6th April 1938
from the Executive Engineer, West Coast Division, Calicut
to the Chief Engineer, General, Buildings and Roads, Madras

Sub:- Constructing an office for the Deputy Inspector of Schools at Coondapur.

In continuation of my No.939-M dated 5th April 1938 I beg to report as follows.

2. The building now proposed is only a small one and will neither materially obstruct the view of the

the court nor the breeze. Moreover there is a road running between the proposed site and the Munsiff's court compound. The circumstances under which the Sub-Magistrate's court was not constructed at this site are not known. But the Sub-Magistrates court is rather a bigger one with compound wall etc., and might have been a more real obstruction. Anyhow this information was not available at the time when the present construction of the building was proposed at this site.

3. It was difficult to find a separate and suitable private building to locate the office. Portions of the buildings, are only available, and locating offices in portions of buildings are always troublesome.

4. The capital cost of the proposed buildi is Rs.3,000/- as per the estimate and the interest is Rs.120/- per annum at the rate of 4% and the monthly rent will be Rs.10/-. No decent private building can be had for an office with so much space for Rs.10/- in this locality.

5. There will not be sufficient accommodation to locate this office in the Sub-Magistrate's court building as represented in the petition.

6. A liability of Rs.497/- has already been incurred on the building till now, and this amount will be an unprofitable outlay to Government if the proposed construction is stopped.

Hence it appears that the investment on the public building now is inevitable, as it is a permanent office.

However the Sub-Collector has made certain proposals of the nature of a compromise to the Collector and the Collector's opinion may kindly be awaited.

Copy of letter No.1067-M/10.B. dated 23rd April 1938 from the Executive Engineer, West Coast Division Calicut to the Chief Engineer, General, Buildings and Roads, Madras.

Sub:- Construction of an office for the Deputy Inspector of Schools at Coondapur - South Kanara District.

In continuation of this office No.939-M, dated 5th April 1938, I submit herewith a statement of the value of work done, materials collected and other charges incurred by the contractor. It will be observed that the total charges already incurred by the contractor is Rs.617: besides the pay of the watchman from 9/3/38 which for about two months at Rs.10/- per mensem or Rs.20/-. The probable outlay on the work will thus be Rs.637/- minus the probable credit on account of materials taken over. It is not possible to estimate correctly the probable credit for the materials collected. In the above sum i.e. Rs.637 a sum of Rs.120 has been claimed by the contractor and included as advances paid to labourers. Whether this claim can be recognised for payment is a point for your decision. The probable unprofitable outlay on the work will approximately be about Rs.475/- if the claim of Rs.120/- for advance is admitted. The contract amount for the whole work is Rs.261

During the time stopping of work of the Deputy Inspector's Office at Coondapur, work for Rs.308 has been done in foundation and it has been billed for.

The following materials were at site at the time of holding up the work and now.

1. Laterite stones.	463		
	187		
	650	at Rs.7/8/0	Rs. 49/-
2. 8 bags of cement at Rs.2/4/0.			Rs. 18/-
3. 200 Cft. sand at Rs. 3/8/0			Rs. 7/-
4. 100 Cft. Laterite jelly @t Rs.3/-			Rs. 3/-
5. Iron hold fasts 56 Nos. at Rs.0/4/0			Rs. 14/-
6. A shed 20' x 20' approximate cost.			Rs. 5/-
			Rs. 96/-

The following materials are getting ready at Udipi.

Teakwood for doors and windows 23½ Cft. at Rs.3/-	Rs. 70/-
-do- for shutters 2½ Cft. at Rs.3/-	Rs. 7/-
Ascu paint. nos.	Rs. 4/-
White corrugal paint.	Rs. 12/-
	Rs. 93/-
Total of work done and paid up. Rs.	Rs.308/-
Laterite for materials at site. Rs.	Rs. 96/-
-do- materials with contractor.	Rs. 93/-
	Rs.497/-

Advances on materials and workmen contractor states.

A watchman is at site since 9th March 1938. Rs.120/-

Copy of letter No. Dis No.1490 dated 11th March 1938 from the District Judge, South Kanara, Mangalore to the Executive Engineer, W.C. Division, Calicut.

The District Munsiff of Kundapur has sent to this Court a copy of his letter to you dated 3/3/38 in which he says he has requested you to defer the construction of the building referred to in his above letter. The Bar Association has also written to me on the same subject and informed me that they have wired to the Minister of Public Works Department and also to the Chief Secretary to the Government. The objection taken by the District Munsiff so far as I can see on paper, appears to me to be sound. I do not know why this Department was not consulted in the matter, as I think it should have been, seeing that a new building is thrust just in front of the Court Hall which is already hedged in by buildings on both sides. I see from the District Munsiff's letter that once before in the year 1896 when a building was about to be constructed in the site now objected to, the idea had to be abandoned on the objection taken by the District Munsiff and even the foundation already laid had to be removed. It is curious how the same site is selected again without consulting this Department. It is desirable that you give this matter your immediate personal attention to avoid further complications and waste of Government money by inspecting the locality if need be and discussing the matter with the officers concerned. Kindly let me know what you propose to do.

To

The Secretary to Government,
Public Works Department.

No. 489-B/38-8, *dated* 25th July 1938.

Sir,

Construction of a building for the office of the Deputy Inspector of Schools - Coondapur Range.

Enclosures

Spare Copies

In continuation of my letter No.489-B/38-3 dated 26th April 1938, I forward herewith copies of the marginally noted correspondence for the information of Government. The Collector's opinion in the matter is awaited and it will be forwarded to Government on receipt.

(1) Sub Collector's letter No.D.Dis.1890-38 dated 29-3-38 to the Collector of South Canara.
(2) Exe. Engr.'s letter No.1662-M dated 12th June 1938 to the Collector of South Canara.

Since recd. vide p. 24 C.F.

2. In the lay out plan No.WC.53/38 (F) sent with my above mentioned letter, the building at the southern end is "Sub Registrar's office" and not "Sub Magistrate's office".

3. The erection of a small building 22' x 42' for the office of the Deputy Inspector of Schools need not have raised all this criticsm. Abandoning the work at this stage means a loss of nearly Rs.600/ The Sub Collector's proposals are too elaborate and would necessitate the shifting of a number of offices and the consequent heavy expense of Rs.6,000/- on converting them all to suit the requirements of new offices. The vacant area

that
there will exist round about the Deputy Inspector Schools' office after it is constructed could still converted into a park.

for Chief Engineer, P.W.D.

ka/25-7-38.

Copy of letter No.1662-M /16B dated 12th June 1938 from the Executive Engineer, West Coast Division, Calicut to the Collector of South Kanara, Bangalore.

Sub: South Kanara-Coondapur--Construction of an office of the Dy. Inspector of Schools--Objection - Sub-Collector's compromise proposals--Remarks on.

Your No. Ref.No.2015-B1-38 dated 7-4-38 on Sub-Collector's (Coondapur)No.D.Dis.1890/38 dated 29-3-38. ↓pp.20-12-38

to
I have/state that I have since inspected the site.

1. I agree with the opinion of the Sub Collector in para 1 that the compound of the District Munsif's Court is rather congested.

2. The proposed office for the Deputy Inspector of schools is a small building only measuring 40' x 25'. I cannot agree that this small building will materially "shut out river view to the Munsif's court hall". The view is already rather distant and obscured by trees.

I cannot understand how this building "will spoil the beauty of the other buildings". Though the Sub Collector has not mentioned it the District Munsif and others have complained that it will cut off breeze. As it lies almost due north of the court I cannot accept this contention either

The District Munsiff and others have quoted the precedent of the building of the Sub Magistrate's court on this site which proposal was quashed in 1898. This would have been a very much bigger building and would have given much more obstruction.

3. This area is probably the most imposing part of the town with its surroundings of public offices and buildings and favourable situation on the river bank and I find myself in complete agreement with the Sub Collector that as a general amenity for the town this area should be preserved as an open space.

On account of the dense shade from the existing fine trees which it would be a pity to sacrifice, I am doubtful if a park would ever be a success, but even as a small maidan on account of its central locality it would probably serve a useful purpose for certain public functions such as receptions, proclamations etc.

11
P. 21-2Dec

4. The Sub Collector has suggested as a sort of compromise that the Forest Range office (in the Dt. Munsif's court compound) be converted into the Sub Magistrate's court and the present Sub Magistrate's court building (about 3 furlongs away towards the town) be adapted for the use of the Dy. Inspector of schools, the Forest Ranger, Health Inspector, Agricultural Demonstrator and the Touring Veterinary Assistant, the last three of whom are in rented buildings.

5. To accommodate the Sub Magistrat's court the Range office will need extending which I have roughly estimated at Rs.4000/-, It will also need alterations at a cost of about Rs.1500/-. The present Sub Magistrat's court will require slight alterations at a cost of about Rs.500.

The total cost of the Sub Collector's proposal will therefore be about Rs.6000/- as against Rs.2,700/- the estimated cost of the new building for the Dy. Inspector of Schools.

6. The following appear to be the advantages of the Sub Collector's proposal.

(a) The amenities of the District Munsif's court will be preserved and the area generally will be improved by keeping this as an open site.

(b) Government will be saved some rents now paid for private buildings.

(c) The Sub Magistrate will be nearer to and can more easily supervise the Treasury and the Sub Jail when the Tahsildar is in camp.

(d) The Vakils are benefitted by having both courts in one compound.

7. With regard to (a) above the site may still be preserved by adopting the Sub Collector's alternative proposal.

With regard to (b) above I consider that accommodations now allowed to the Range Officer is excessive and that some of the offices now held in private buildings as mentioned in para 4 could be accommodated in the Range Office which would equally save Government

Government paying out some rents.

With regard to (c) above, at present the Sub Magistrate is only about 3 furlongs away. The distance is not excessive and the gain therefore not very materials.

With regard to (d) above however desirable the proposal may be, it appears to be at Government expense and no corresponding benefit that I can see will acrue to Government.

8. The following appear to me to be definite disadvantages of the proposal:-

(a) The costs of extending and altering the Range Office and of altering the Sub Magistrate's court will involve Government in an extra cost of about Rs.3,300 (i.e.Rs.6000 - Rs.2,700) vide para 5.

(b) The present Sub Magistrate's court is well built according to type design. The converted Range Office cannot possibly give the same facilities as a building specially designed for the purpose, and is an older inferior building; so the Sub Magistrate will be worse off.

(c) The accommodation that will be available in the Sub Magistrate's court for the Deputy Inspector of Schools and for the Range Officer will be in excess of the accommodation to which they are entitled, but unfortunately the main building cannot be conveniently adopted to bring in a third officer. Government therefore would stand to lose indirectly by not being able to get the full economic use of the building.

(d) It is for consideration whether having two courts so immediately adjacent to each other will not cause congestion, confusion and noise, seeing that the compound is already congested vide para 1.

(e) The agricultural, Health and Veterinary Departments do not appear to have been consulted yet with regard to the proposals. I feel doubtful if the agricultural Department would agree to the proposal. Their work is largely propoganda and

they generally like a site in the bazaar which catches the eye of and is easily accessible to the ryots.

9. In my opinion the disadvantages of the Sub Collector's proposal outweigh the advantages.

I would therefore recommend the alternative proposal of the Sub Collector viz. that the office of the Dy. Inspector of schools be constructed on the small site (S.N.199/2B) in the South-west corner of the Sub Collector's office compound.

With this proposal (a) the original site will be preserved as an open area.

(b) The proposed site is already Government land and will cost nothing extra.

(c) By abandoning the present site and work Government will be involved in an unprofitable expenditure of only Rs.308/-

(d) This will meet the considerable opposition disclosed to the present proposal.

Copy of letter D.Dis.1890-38 dated 29-3-38 from the evenue Divisional Officer, Coondapoor to the Collector of South Kanara.

Buildings - Dy. Inspector's Office--Construction - objection - report submitted.

I enclose a sketch showing the location of most of the public offices at Coondapoor. As they are, the offices are close to one another, with little or no compound to any of these, except the Sub Collector's office. To add to the congestion the weekly shandy market, which is one of the biggest in the District is situated close to the Taluk office and the Sub Registrar's office. Though the southern boundary of the Sub Collector's Office is marked by line measuring 598 links the actual compound wall is to the north as shown in the dotted line. This leaves a triangular plot, with a base of about 20 to 30 links and this was probably left out to avoid low land between the boundary and the coast road in S.No.115/1. Similarly a triangular bit on the south-east of the Sub Registrar's office in S.No.99/3 has also been left out. The plot left out as well as portion of the road margin is used as cart stand on shandy days. It is necessary to include this small plot in the compound as it is necessary for the Sub Registrar's office which has no urinal or space to move about. The Dt. Munsif's court has a latrine to the west of the building, but being very close to the court house on the wind-

side, the latrine is not used. There is need to extend the compound of the Dt. Munsif's court on the west to include the south-western part S.No.99/4 in a line with parties' shed but excluding the cattle pound. In this proposed extension a joint latrine, both for the Dt. Munsif's court and Sub Registrar's office can be built. This plot is at present meant for a passage from the coast road into Sub Collector's office but is not used so. It may also be added that though the western boundary of the Munsif's court is marked by the straight line the actual boundary wall has been built beyond it as shown by dotted lines.

While the requirements of the buildings as like these the office for the Dy. Inspector of schools, Coondapur is being constructed in the vacant land just opposite to the Dt. Munsif's court and L.F.Section Officer's office and the foundations of the building have been laid. A small piece of vacant land as shown in the sketch is available in the place where the building is proposed to be constructed. The vacant land serves as the common frontage and compound for the offices of the Dt. Munsif, Forest Ranger, Tahsildar, the L.F.Section officer, L.F.Travellers' Bungalow. This can conveniently be converted into a small park by the combined efforts of all the public offices. The construction of a small building in the vacant site will not only shut out river view to the Munsif's Court Hall, but also spoil the beauty of the other buildings.

2. I have an alternative proposal. Instead of constructing a separate building for the Dy. Inspector of schools he can conveniently be provided with an office in the present Sub Magistrate's Office. This may be done with best advantage to the Stationary Sub Magistrate, Vakils and the public. The present Sub Magistrate's court is about 3/4 of a mile from the Taluk Office. As the Magistrate has to be in charge of the Sub Treasury during the Tahsildar's absence from head-quarters, he has to go to the Taluk office at least twice a day if not more, for opening and closing the Treasury. In addition to attending to Tahsildar's work,

he has to attend to his own work as Sub-Jail Superintendent. The Sub-Jail and the Police Station are located in the Taluk Office. His frequent journeys disturb his own work and during the rainy season it is very inconvenient for the Sub Magistrate to go to the Taluk office twice or thrice a day. In order to avoid this, the Forest Ranger's office may be given to the Sub Magistrate after making necessary repairs and raising the roof. The present building will be sufficient for the Sub Magistrate with little alterations. If this is done, the public inconvenience now felt can be avoided with advantage to Government.

3. If the above proposal is approved, the present Sub-Magistrate's court may be converted into two offices with small alterations. The court hall the private room and the property room may be given to the Forest Range Officer and the clerks' room and the record room may be given to the Dy. Inspector of schools. I have consulted the Dt. Forest Officer, Mangalore North, who has no objection to give the present Range office to the Sub Magistrate. The parties' shed in the compound of the Sub Magistrate's office can be walled off and converted into offices for the Agricultural Demonstrator and the Veterinary Assistant. The Veterinary Assistant, Health Inspector and Agricultural Demonstrator have no separate offices. The Agricultural Demonstrator pays a rent of Rs.6/- per month and the Health Inspector pays Rs.5/- per month. The Veterinary Assistant does not get any rent from Government. The record room of the Sub Magistrate's office is sufficiently big. The Dy. Inspector may not require such a big room. If half of the record room is sufficient for the Dy. Inspector, the remaining half of it may be converted into a room, if necessary, by adding to it a verandah and it may be given to the Health Inspector, If this is done, the construction of a new building may be avoided and all the Government officers may be provided with offices.

4. Yet there is another proposal. If it is decided to construct a building for the Dy. Inspector of schools, I suggest

23/

S.No.199/2B may be used for it. This land forms the South-western corner of the Sub Collector's office compound, and adjoins the east road. It was sub-divided some years back for alienation to the Taluk Board for construction of office, but as the Taluk Board would not build on it it was resumed.

5. In the circumstances stated above, I request that the above suggestions may be considered and action taken to carry out the above proposal in consultation with the several heads of Departments concerned.

No. 1164 Wks. 39-1 *dated* 26th April 1939. 19

Short title Buildings - South Kanara - Coondapur - Construction of a new building for the office of the Deputy Inspector of Schools - Unprofitable outlay due to change in site - Estimate for improvements to the Forest Range Office.

READ—the following :

From the Superintending Engineer, Coimbatore Circle, No. 532 W dated 25th March 1939.

Submitted to Government (Public Works Department) with reference to their Memorandum No. 1024 C/38-7 dated 14th November 1938. 28.29 apts

2. In the circumstances explained by the Superintending Engineer in para 2 of his letter I am informing him that the existing contract entered into for the work at the old site may hold good for the work at its new site. In that case the unprofitable outlay incurred on the work so far done at the old site is restricted to Rs. 308/- (Three hundred and eight) only as stated by the Superintending Engineer. As this amount is below Rs.500/- I shall sanction the write off of the amount under para 415 VI of the Public Works Department Code as soon as I hear from the Superintending Engineer that the new site has been formally approved by the District Educational Officer and the Collector of South Kanara.

3. As regards para 3 of the Government Memorandum I recommend that the Superintending Engineer's proposal to locate the Health Inspector's Office in the Forest Range Office Buildings may be accepted. An estimate amounting to Rs. 370/- for carrying out the necessary consequential improvements to the Forest Range Office is enclosed.

To the Secretary to Government,
Public Works Department with
(1) A copy of Superintending Engineer's letter with its enclosure and
(2) Estimate in duplicate and
(3) Plan No. W.C.38/39.

for Chief Engineer, P.W.D.

CRS./28-4-39.

Copy of letter from the Superintending Engineer, Coimbatore Circle No. 532 W/601.P. dated 20th March 1939.

Buildings - South Kanara - Coondapur Construction of a new building for the Office of the Deputy Inspector of Schools.
Ref:- Your Endt. No. 489 B/38 dC.P. dated 5-12-38.

With reference to your endorsement quoted above forward herewith a copy of letter from the Executive Engineer No. 426 SE dated 17-3-39 with its enclosures (in

As apparently the building is not altered but only the site. it seems to me that the existing L.S. contract may continue to apply subject to the condition that no enhanced rates will be paid on account of the change of site. I request the favour of your orders on this point.

If this proposal is accepted the unprofitable outlay to be written off on account of the work so far done in S.No. 99/4 opposite the District Munsif's Court will be Rs. 308/-. The Executive Engineer's proposal to accommodate the Health Inspector's Office in the Forest Range Office is shown in the plan W.C. No. 38/1939 vide also report accompanying the estimate and it may be approved.

Copy of letter No. 426 SE dated 17-3-39 from the N.J. Joseph, Esq., Executive Engineer, West Coast Divn. to the Superintending Engineer, Coimbatore Circle.

Sub:- Constructing a new building for the office of the Deputy Inspector of Schools, Coondapur estimate Unprofitable outlay etc report.

Ref:- Your No. W.C. 1204 W.C. dated 6-12-38 and Nos. 174 W. dated 30-1-39 and 342 W dated 24-2-39.

The new estimate for the above building to be erected in S.No. 199/2-B as approved in para (1) of the Govt. Memo. No. 1024-C/38-7 dated 14-11-38 is received from the Sub Divisional Officer and the site plan is being sent to the

the District Educational Officer and the Collector of South Kanara for their approval of the location of the building in a specific spot in the S.No. Necessary action will be taken to sanction the estimate on receipt of their approval.

2. As regards the unprofitable outlay to be written off I submit the following for your consideration and orders. The value of work done in the old site is Rs. 308/- besides the value of materials collected etc., which would bring the amount to about Rs. 637/- as already reported in my No.1067 M dated 23-4-38. But the contractor of the old work Sri Subbaya Hegde has given a statement (herewith enclosed) that he is prepared to suffer the losses already sustained by him, if he is given the new work as per the existing L.S.agreement No.20/ 37-38. A statement, showing the quantities, rates and amounts as per the original estimate, the new estimate now received and the existing agreement is enclosed. From this it may be seen that the total value of the new work will be Rs.2611-9-0 if it is given to him at the existing agreement rates. The corresponding amount as per the new estimate rate is Rs.2610-0-0 and the difference is only Rs. 1-9-0 which is trifling.

4. As regards proposals for accommodating some more offices in the Forest Range Office, I submit herewith a plan and estimate for Rs. 370/- for improvements to the above office for approval.

Report to accompany the estimate for Improvements to the Forest Range office in the compound of the District Munsiff's court, Coondapur for accommodating the office of the Health Inspector.

Amount of estimate Rs.370/-

In para 3 of Government Memo No.1024 C/38-7 dated 14-11-38 proposals for accommodating some more offices in the Forest Range office, Coondapur were called for, as the present accommodation for the range office is considered as excessive of requirements. The estimate provides for enclosing the southern verandah of the Forest Range office to provide a room 10'-3" x 15'-6" for -- accommodating the Health Inspector's office. The present Ranger's Store room 8'-9" x 8'-6" on the southern side is also proposed to be given to the Health Inspector as his store room. A partition wall will be put in the clerk's room of the range office as shown in the plan to provide for the range office a store room 25'-6" x 9'-3".

Executive Engineer,
West Coast Division.

1331 C. Mr. K.R. Bhandari, Pleader, coondapoor dt. 2-3-38 pp. 3-4

1285 C. The C.E. (GLBRY) No. 489 B/38-1 dt. 23-3-38 p. S. CE

Please see the communications from the C.E. on pp 2 & S CE and the representation from one Mr. K.R. Bhandari, a Pleader coondapoor on pp 3-4 CE. The Bar Association's representation referred to in the telegram on p. 1 ante has not yet been received. In view of the S.E.'s remarks at M on p. S CE it is for consideration whether the Bar Association's representation will be awaited or whether the C.E. will be permitted to proceed with the work.

The remarks of Home & Education pts may be invited

3-38 [The estimated cost of the work is Rs 3000 and there will be an unprofitable outlay - Rs 300 and odd. if the work is now stopped. The point arises whether before coming to a decision the remarks of the CE should be obtained on the points mentioned in the representation on pages 3 to CE.]

S 3/4 The only one who can reasonably object seems to be the Municipal Council to

built. It is not clear what the Dy. Secretary to the Govt. meant by it.

It is for consideration whether orders ought to proceed with the work no valid reasons having been given by the Advocate (Mr. Bhandari) nor any representation having been received from the Bar Assn. or. whether Mr. Bhandari's petition ought to be referred to the CE for very early remarks

Better obtain CE's report urgently

A sketch plan would be useful

As per 3 of Rly. requires Special Consideration

If a suitable building can be obtained for rent I don't know why Govt. should bother to put up a building of their own

Rly
25/2

circumstances it would appear that the construction of a building at Government cost for the Deputy Inspector of Schools is inevitable as it is a permanent office.

Item (2) overleaf. Whether the building now being constructed on S.No.99/4 should be abandoned:

The objections raised against the putting up of the building on the present site are that it is thrust just in front of the Court Hall, which is already hedged in by buildings on both sides, that the whole view of the imposing structure of the Court Houses will be obstructed and that the breeze will be interfered with. For an answer to these objections please see para 2 of the Executive Engineer's letter on pages 9-10 c.f. and on page 16 c.f. The Chief Engineer thinks that the strong objection raised by Mr. Bhandari and the District Judge lacks reasonable support. The Collector is entirely in agreement with the views of the Executive Engineer.

The Executive Engineer however finds himself completely in agreement with the Sub Collector on the point that as a general amenity for the town the small piece of vacant land (on which the building is to be reared) which serves as a common frontage and compound for the offices of the District Munsif, the Forest Ranger, the Tahsildar, L.F.Section Officer and the L.F. Travellers' Bungalow, should be preserved as an open space, if not as a park as suggested by the Sub Collector, at least as a small maidan serving, by its central location, a useful purpose for certain public functions as receptions, proclamations etc.

But whatever may be the artistic appeal of this proposal the financial aspect demands attention. Commitments to an extent of Rs 600/- have been incurred and the abandonment of the work at this stage will mean that the outlay will have to be treated as unprofitable. In view of the opposition displayed to

ASST. SECR
27 AUG 1938
EDUCATION AND PUBLIC HEALTH DEPT.

the construction of the building on the present site it is for consideration whether this unprofitable expenditure may be borne by Government.

Item (3) ~~above~~ Whether the building should be onstructed on S.No.199/2B:

If the foregoing is accepted, the alternative suggestion made by the Sub Collector will have to be accepted. While it has the merit of ~~meeting~~ conceding ~~a little~~ to the demands of the opposition it does not suffer from the disadvantage of extra cost as is the case with the Sub Collector's other proposal ~~mentioned in item (1)~~ referred to at P on page 6, ante. The ~~Chief~~ Engineer recommends it, the Collector agrees and the Chief Engineer endorses it.

Para 6 pp. 22-24 cf.

3 ~~The~~ case may be sent to ~~E.& P.H.~~, Home and Finance for remarks ~~or perusal~~ before circulation.

JB 18/8/38 and 23/8

If the proposal in item (3) above is adopted the unprofitable outlay will be reduced to Rs 308/- vide para 9(c) on p. 19 cf.

Please see A in para 7 of the El. Engrs. letter on p. 17 cf. The accommodation now provided for the Forest Range officer in the Dt. Munsiff's court building is reported to be excessive and trial - some more offices can be accommodated in it. The CE may be asked to examine the point and submit proposals.

The file may be sent to E & P H. Home and Fin. for remarks.

E&PH 26/8

Home Fin 23/8

The Deptt. may agree to the adoption of the Course suggested at 'F' on p. 8 ante

2. The file may be passed on to Home

The Collector suggests that the building for the office of the Dy. Inspectors of Schools may be constructed on the South west corner of the Sub Collector's office compound. This may be accepted as this Deptt.

HOME (E) DEPARTMENT.

A.S.

The file relates to the question of the construction of a building for the Office of the Deputy Inspector of Schools at Coondapur. It was proposed that it should be built opposite to the District Munsif's Court Coondapur and the work was started. The Bar Association and the District Judge protested against the construction of the building on the ground that it would spoil the artistic beauty of the court building. It has now been decided that the work should be abandoned and that the proposed building should be put up in the compound of the Sub-Collector's office nearby. ~~The proposal of the P.W.D. Asst. Engr. may be agreed to.~~

2. The file may be passed on to Finance.

In G.O. No. 1180 P.W. & 22.12.37 the Govt. approved an expenditure of Rs 3000 on the construction of a new building for the office of the Dy. Inspector of Schools at Coondapoor on the site opposite to the court houses at the place. The work was commenced and an expenditure of Rs. 308 was incurred thereon. At

32127 62

Page 12 C.F.

stage objections to the construction of this building were raised on the ground that the new structure would interfere with the breeze and the general appearance of the court buildings. Further progress on the work was stopped and the Chief Engineer was asked to report in the matter. He has stated — Page 1 ante + p. 3?

(a) that in the absence of suitable privately owned buildings construction of a building for the office of the Dy. Inspector of Schools is a necessity Paras 2-5 on p. 10 C.F.

(b) that the erection of a small building 22' x 42' for this office in the Dt. Munsifs court compound will not spoil the view of the court house; Pages 14 + 16 C.

(c) but that if the objection should be upheld the new building may, as proposed by the Sub Collector, be constructed in S. No 199/28 at the south western corner of the Sub. Collectors office compound.

HM (PW)
HM (Edn.)

I cannot understand how the construction of a small building in the

vicinity of the District Munsif's court "would spoil the artistic beauty of the court building. The Executive Engineer, the Collector and the Chief Engineer do not agree with the view of the Bar Association. Abandoning this site after having spent some money on foundations ect. will involve a loss to the Government which does not appear to me to be justified. As, however, the building is for the Education Department, the views of H.M.(Edn) may prevail in this matter.

V.P. 26/2

I agree with HM (PW) that the work should be continued and the building built on the site selected. I cannot see how the artistic beauty of the Court buildings would be spoilt by this building.

The objections to the proposal ...
the DT Munsif's Court compound are far too strong for us to overrule. Everyone is against it and most officers of the DT Local have approved of the proposal to build instead on S. no. 199/2 B, in the Sub Collectors office compound. & this does not put Govt to any loss. & we may accept the sacrifice of Rs 308 involved in order to satisfy so many officers & others desiring to save the open space H.M.(Ed) kindly see again. C.P. 30/10/38

H.M.(Ed.) In views were H.M. has agreed we may build on S.no 199/2 B

NOTE FOR CIRCULATION.

In G.O. R. No.1180 P.W.D. dated 22-12-37 the Government approved an expenditure of Rs 3,000 on the construction of a new building for the office of the Dy. Inspector of Schools at Coondapur (in the South Kanara District) on the site opposite to the Court houses at the place. The work was commenced and an expenditure of ~~Rs 308~~ about Rs600/- was incurred thereon. At that stage objections were raised by the Bar Association to the construction of the building for the reason that the new structure would interfere with the breeze and the general appearance of the Court buildings. Further progress on the work was stopped and the C.E. was asked to report on the matter. He stated that the erection of a small building 22' x 42' in the compound of the Dt. Munsif's Court would not spoil the view of the Court house but that if the objection should be upheld the new building might be constructed in the South Western corner of the Sub Collector's office compound as proposed by the Sub Collector. The Collector also agreed with the C.E. and in view of the objection raised recommended the construction of the building on the new site proposed. E. & P.... nd Finance have accepted this recommendation. It is therefore proposed to approve the proposal to construct the building on the new site in the Sub Collector's office compound.

The work so far done to the extent of about Rs 308 on the old site will become unprofitable and will have to be written off. It is proposed to ask the C.E. to report the exact amount that may have to be so written off.

~~PROCEEDINGS~~ MEMORANDUM OF THE Chief Engineer, P.W.D.(General, Buildings & Roads).

Post Box No. 410 *Telegraphic Address* Quyadamica

Name H.R. Dogra, Esq., B.Sc.

No: 1164 Wks/39-4 *dated* 2nd. Septr. 19 39.

Short title Buildings- South Kanara District- Coondapur- Construction of a new building for the Office of the Deputy Inspector of Schools- Unprofitable outlay- Write off- Sanctioned.

READ—the following :—

From the Superintending Engineer, Coimbatore Circle, No. 1426 W., dated 15th August 1939.

Sanction is accorded to write off the unprofitable outlay of Rs.316/- (Three hundred and sixteen) incurred on account of the change in site for the construction of a new building for the Office of the Deputy Inspector of Schools. Coondapur, in South Kanara District.

H.R. Dogra,

Chief Engineer, P.W.D.

To the Superintending Engineer, Coimbatore Circle.

Copy to the Accountant-General, Madras.

Endorsement

Endorsement No.1164 Wks/39 C.P., dated 2nd Septr. 1939.

Copy submitted to Government in continuation of Chief Engineer's letter No.1164 Wks/39-1 dated 26th April 1939. The excess of Rs.8/-(in round figures) over the amount previously reported to Government in the above letter is due to the addition of petty supervision charges on the work since reported by the Superintending Engineer.
